

NOTE: This is modified from the official document “The Customs (Tariff Quotas) (EU Exit) Regulations 2020, Tariff Quotas, version 2.1, 08 June 2021” to include a column of product names alongside the customs harmonised system (HS) codes, called here “commodity codes”.

How these codes work is complicated. Matching them up with product names is not always easy, and more than one source is used, including the UK’s proposed commitments on tariffs and tariff-quotas in the WTO.

I cannot guarantee that this is 100% correct

Note there are three tables. The tariff quotas are separated according to how they are administered and other criteria

The identified products are used for “[UK-Australia deal on farm goods: when a cap is not a cap](#)” on [Trade β Blog](#)
