

## ‘TRIPS waiver’ texts: how they compare

The 2022 India-EU-South Africa-US (Quad) compromise and the 2021 revised India-South Africa proposal

March 18, 2022

	2021 India-South Africa draft	2022 Quad draft
<b>Text</b>	<a href="#">Link</a>	<a href="#">Link</a>
<b>Type of instrument</b>	Waiver (Article 9.3 and 9.4 of the WTO Agreement)	General Council <i>decision</i> (Article 9.1 of the WTO Agreement)
<b>Preamble</b>	Has preamble	No preamble (yet)
<b>Coverage</b> <b>1. Intellectual property types</b>	Copyright, industrial designs, patents, trade secrets, enforcement	Patent <i>rights</i> Part of trade secrets on <i>test data</i> : normal confidentiality rules cannot obstruct covered authorisation from taking effect
<b>Coverage</b> <b>2. Product types</b>	Diagnostics, therapeutics, vaccines, medical devices, personal protective equipment, their materials or components	Vaccines (Consider adding within 6 months: COVID-19 diagnostics and therapeutics)
<b>Duration</b>	3 years, extended automatically unless (consensus) decision to <i>terminate</i>	3 or 5 years (to be decided). Extension not automatic. Requires (consensus) decision to <i>extend</i>
<b>Exemption: entertainment (copyright)</b>	Exemption included	Not relevant (copyright not covered)
<b>Least-developed countries</b>	Specifically preserves right not to protect intellectual property (TRIPS Agreement Art66.1)	Not mentioned because coverage is different
<b>All developing countries</b>	Not mentioned because coverage is all countries	“Eligible members” are developing countries with a share of less than 10% of vaccine doses exported in 2021. This excludes China.
<b>General Council review</b>	Annually, under WTO rules on waivers (Article 9.4 of the WTO Agreement)	Annually, as written into the decision
<b>Nullification and impairment</b>	No challenge under GATT Article 23.1(b) and 1(c), no recourse to dispute settlement	Similar. Dispute settlement not mentioned.

	2021 India-South Africa draft	2022 Quad draft
<b>Transparency</b>	Not mentioned	<p>Information to be shared with the WTO membership (and the public) through notifications to the TRIPS Council as soon as possible</p> <ul style="list-style-type: none"> <li>• Authorisation under the decision and related measures</li> <li>• Name and address of authorised entity (ie, company, agency, organisation, etc)</li> <li>• Products covered</li> <li>• How long the authorisation lasts</li> <li>• All patents involved</li> </ul> <p>Also as soon as possible after the information is available:</p> <ul style="list-style-type: none"> <li>• Quantities authorised</li> <li>• Countries supplied</li> </ul>
<b>Legal certainty</b>	Not mentioned	<ul style="list-style-type: none"> <li>• Not mentioned although transparency helps</li> <li>• Questions remain over pending and pipeline patents</li> </ul>
<b>Products leaking to non-waiver markets</b>	Not mentioned	<p><b>Importing country:</b> undertake all reasonable efforts to prevent re-export</p> <p><b>All countries:</b> have legal procedures to deal with covered products improperly imported</p>
<b>Article 31 flexibilities (use without the owner's consent)</b>	Not relevant because the waiver removes all need	<ul style="list-style-type: none"> <li>• Negotiating a voluntary licence first not needed (debatable whether this is already covered if a pandemic is an emergency)</li> <li>• Products covered do not need to be predominantly for the domestic market, allowing large volume exports (avoids procedures of Art31(f)bis)</li> <li>• Payment to the right-holder still needed but clarified: take into account “humanitarian and not-for-profit” purposes aimed at providing the vaccines at affordable prices; use existing guidelines</li> </ul>
