

II. MARKET ACCESS

A. TIERED FORMULA FOR TARIFF REDUCTIONS

Basis for reductions

59. Subject to such other specific provisions as may be made, all final bound tariffs⁷ shall be reduced using the tiered formula set out in the paragraphs below.

60. In order to place final bound non-*ad valorem* tariffs in the appropriate band of the tiered formula, Members shall follow the methodology to calculate *ad valorem* equivalents (AVEs), along with associated provisions, set out in Annex A to TN/AG/W/3 of 12 July 2006. All AVEs so calculated shall be listed in an annex to these Modalities.

Tiered formula

61. Developed country Members shall reduce their final bound tariffs in six equal annual instalments over five years in accordance with the following tiered formula:

- (a) where the final bound tariff or *ad valorem* equivalent is greater than 0 and less than or equal to 20 per cent, the reduction shall be 50 per cent;
- (b) where the final bound tariff or *ad valorem* equivalent is greater than 20 per cent and less than or equal to 50 per cent, the reduction shall be 57 per cent;
- (c) where the final bound tariff or *ad valorem* equivalent is greater than 50 per cent and less than or equal to 75 per cent, the reduction shall be 64 per cent; and
- (d) where the final bound tariff or *ad valorem* equivalent is greater than 75 per cent, the reduction shall be 70 per cent.

62. The minimum average cut on final bound tariffs that a developed country Member shall be required to undertake⁸ is 54 per cent. Should application of the tiered formula treatment above, inclusive of the treatment for Sensitive Products as outlined in Section B below and additional cuts made as provided for elsewhere in these modalities relating to tariff escalation and tropical products result in an overall average cut less than 54 per cent, an additional effort shall be made proportionately across all bands to reach that target.

63. Developing country Members other than those specified in paragraph 65 below shall reduce their final bound tariffs in eleven equal annual instalments over ten years in accordance with the following tiered formula:

- (a) where the final bound tariff or *ad valorem* equivalent is greater than 0 and less than or equal to 30 per cent, the reduction shall be 2/3 of the cut for developed country Members in paragraph 61(a) above;
- (b) where the final bound tariff or *ad valorem* equivalent is greater than 30 per cent and less than or equal to 80 per cent, the reduction shall be 2/3 of the cut for developed country Members in paragraph 61(b) above;

⁷ That is, all out-of-quota tariffs specified in Section I-A of Members' Schedules of Concessions. In-quota tariffs shall be subject to commitments under the relevant paragraphs.

⁸ i. e. the average of the cuts made.

- (c) where the final bound tariff or *ad valorem* equivalent is greater than 80 per cent and less than or equal to 130 per cent, the reduction shall be 2/3 of the cut for developed country Members in paragraph 61(c) above; and
- (d) where the final bound tariff or *ad valorem* equivalent is greater than 130 per cent, the reduction shall be 2/3 of the cut for developed country Members in paragraph 61(d) above.

64. The maximum overall average cut on final bound tariffs any developing country Member shall be required to undertake⁹ as a result of application of this formula inclusive of the treatment for Sensitive Products as outlined in Section B below is 36 per cent. Should the above formula imply an overall average cut of more than 36 per cent¹⁰, the developing country Member shall have the flexibility to apply lesser reductions applied in a proportionate manner across the bands, to keep within such an average level.

65. Those small, vulnerable economies¹¹, including those among them which are ceiling binding and homogeneously low binding countries, which choose to exercise the option set forth in paragraph 130 below shall be entitled to moderate the cuts specified in paragraph 63 above by a further 10 *ad valorem* percentage points in each band.

Recently-Acceded Members

66. RAMs shall be entitled to moderate the cuts they would otherwise have been required to make under the tiered formula for developing country Members in paragraph 63 by up to 8 *ad valorem* percentage points. All RAMs shall be entitled to exempt their final bound tariffs at or below 10 per cent from reductions in bound tariffs.

67. Saudi Arabia, the Former Yugoslav Republic of Macedonia, Viet Nam, Tonga and Ukraine, as very recently-acceded Members and small low-income RAMs with economies in transition¹², shall not be required to undertake reductions in final bound tariffs.

68. For all other RAMs, to the extent that, in implementing commitments undertaken in acceding to the WTO, there would be actual overlap with commitments to be otherwise undertaken in association with these Modalities, the start of implementation of commitments undertaken in association with these Modalities for such tariff lines shall begin one year after the end of implementation of the accession commitment.

69. The implementation period for RAMs may be prolonged by up to two years after the end of the developing country Members' implementation period.

⁹ i. e. the average of the cuts made.

¹⁰ In the case of Venezuela, this ceiling shall be 30 percent.

¹¹ The Members concerned are those that meet the criteria set out in paragraph 151 and are listed in Annex I. As is made clear in the Agreed Framework, Small vulnerable economies (SVEs) are not meant to create any sub-category of Members. Bearing that principle in mind, the following Members could also be deemed to be eligible for this treatment, should they choose to avail themselves of it, despite not being members of the SVE Group *per se* given that this treatment could be deemed to be broadly comparably appropriate: Republic of Congo, Côte d'Ivoire and Nigeria (plus other Members that can provide data that show that they meet the criteria in paragraph 147). Additionally, Bolivia shall have access, exceptionally, to treatment equivalent to that provided for in paragraph 142. As an exception, Suriname shall rebind its agricultural tariffs on a line by line basis at the level of the average bound tariff of Antigua and Barbuda, Barbados, Belize, Dominica, Grenada, Guyana, Jamaica, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines and Trinidad and Tobago resulting from these modalities.

¹² This is applicable to Albania, Armenia, Georgia, Kyrgyz Republic, Moldova and Mongolia.

70. More specific provisions can be found in the relevant sections of this document.

B. SENSITIVE PRODUCTS

Designation

71. Each developed country Member shall have the right to designate up to 4 per cent of tariff lines as "Sensitive Products".* Where such Members have more than 30 per cent of their tariff lines in the top band, they may increase the number of Sensitive Products by two per cent, subject also to the conditions outlined in paragraph 75 below. Where application of this methodology would impose a disproportionate constraint in absolute number of tariff lines because tariff concessions are scheduled at the 6-digit level, the Member concerned may increase its entitlement by that amount also.

* *Japan and Canada have declared themselves not to be in a position to agree to this limitation*

72. Developing country Members shall have the right to designate up to one-third more of tariff lines as "Sensitive Products".

Treatment - tariff cut

73. Members may deviate from the otherwise applicable tiered reduction formula in final bound tariffs on products designated as Sensitive. This deviation may be one-third, one-half or two-thirds of the reduction that would otherwise have been required by the tiered reduction formula. Accordingly all of the tariff lines for a particular product shall take a uniform deviation.

Tariff quota expansion

74. For developed country Members, tariff quotas derived from the provisions in paragraph 71 above and paragraphs 75-77 below shall result in new access opportunities equivalent to no less than 4 per cent of domestic consumption expressed in terms of physical units where the two-thirds deviation is used. Where the one-third deviation is used, the new access opportunities shall be no less than one per cent less than that percentage of domestic consumption. Where the one-half deviation is used, the new access opportunities shall be no less than 0.5 per cent less than that percentage of domestic consumption.¹³

75. Where a Member is entitled to, and chooses to exercise its entitlement to have a higher number of Sensitive Products pursuant to paragraph 71 above, the relevant amounts specified in paragraph 74 shall be maintained for the defined percentage of products applicable to all developed country Members. For the additional 2 per cent available to those Members under paragraph 71, the Member concerned shall have an obligation to ensure that, whichever deviation is selected, an additional 0.5 per cent of domestic consumption beyond what is generally provided for is achieved for those products.

76. If, after application of all its tariff reduction commitments (i.e. including its Sensitive Product deviation entitlements), a developed country Member¹⁴ would still have some of its tariff lines in

¹³ See Annex C regarding the calculation of these tariff quota expansion commitments under paragraph 74-83.

¹⁴ For a developing country Member the relevant tariff threshold is 150 per cent *ad valorem* and the limit is, consistent with paragraph 72, one-third more than for a developed country Member. In addition, where a developing country Member applies a Special Product entitlement, the tariff threshold shall not apply.

excess of 100 per cent *ad valorem*, it shall be entitled to retain these only if the tariff lines concerned are confined to those designated as, and are within the numerical limits of, that Member's overall Sensitive Product entitlement and that the Member concerned applies a higher expansion of 0.5 per cent of domestic consumption for those tariff lines concerned. [Certain Members¹⁵ may also do so outside the Sensitive Product entitlement provided that (a) this is for no more than 1 per cent of its tariff lines beyond the Member's sensitive entitlement; and (b) that the Member concerned either provides a further expansion of 0.5 per cent of domestic consumption for all its Sensitive Products or provides that, for any line concerned, the tariff cut is implemented two years faster than would otherwise be required or is increased by an additional ten percentage points *ad valorem*.]

77. Where the existing bound tariff quota volume already represents 10 per cent or more of domestic consumption, the obligations to expand the tariff quota volumes by the percentages of domestic consumption specified in paragraph 74 may be reduced by 0.5% for each deviation. Where the existing bound tariff quota volume represents 30 per cent or more of domestic consumption, the obligations to expand the tariff quota volumes by the percentages of domestic consumption specified in paragraph 74 above may be reduced by 1 per cent for each deviation.

78. For developing country Members using the Sensitive Product deviation entitlements provided for in paragraph 73 above, the tariff quota expansion shall be two thirds of the volume for developed country Members. For developing country Members, domestic consumption shall not include self-consumption of subsistence production. Alternatively, developing country Members may choose from one of the three following options for use of their Sensitive Product entitlement by taking a smaller deviation than would otherwise be required under paragraph 63 above at the rate of:

- (a) one-third less than the formula cut otherwise applicable for no more than half of their Sensitive Product entitlement implemented over 3 years; or
- (b) one-half less than the formula cut otherwise applicable for no more than one-third of their Sensitive Product entitlement implemented over 2 years; or
- (c) two-thirds less than the formula cut otherwise applicable for no more than one-quarter of their Sensitive Product entitlement by the end of the first year of implementation.

79. For the remainder of their Sensitive Product tariff lines, a developing country Member may either take the full formula tariff cut, but with an implementation period that is three years longer than would otherwise be required, or apply tariff quota expansion.

80. A Member may also choose to take the full formula cut on all the lines but with an implementation period that is three years longer than would otherwise be required.

81. Where recourse is taken to the provisions above there would be no requirement for tariff quota expansion on the relevant tariff lines except as provided for in paragraph 79 above.

82. Expansion of the tariff quota for a Sensitive Product shall be scheduled and applied *erga omnes* on a most-favoured-nation basis only. The first instalment shall occur on the first day of implementation and be a minimum of one quarter of the total additional domestic consumption. The remaining three-quarters of the total shall be added in three steps at the expiry of each subsequent twelve-month period.

¹⁵ Iceland, Japan, Norway, Switzerland.

83.

Either:

No tariff line may be declared sensitive and subject to a tariff quota for Sensitive Products unless that tariff line was already subject to a pre-Doha tariff quota.

Or:

Members are entitled to declare sensitive any tariff line, irrespective of whether that tariff line was already subject to a pre-Doha tariff quota.

C. OTHER ISSUES

Tariff escalation

84. The tariff escalation formula provided below shall apply to the list of primary and processed products attached in Annex D.¹⁶

85. In addition to the application of the tiered tariff reduction formula, tariff escalation shall be addressed in the following manner:

86. Instead of taking the cut that would otherwise apply to final bound tariffs in the band to which the processed product belongs (with the exception of the top band), the processed product shall take the cut that would, according to the tiered formula, otherwise be applicable to the tariffs that fall in the next highest band. A processed product in the top band shall be reduced by a cut which is equal to the cut that would otherwise have been applicable according to the tiered formula increased by 6 *ad valorem* points.

87. These supplementary cuts shall be moderated for the products concerned in two circumstances. First, where the absolute difference between the processed and primary product tariffs after application of the normal tariff formula would be 5 *ad valorem* percentage points or less in any given tier except in the case of the bottom tier, no additional tariff escalation adjustment shall be required.

88. Second, the tariff escalation adjustment formula cannot be applied in full where doing so would reduce the tariff for the processed product below that applicable to the primary product. In a situation where this would occur, the rate of reduction for the processed product shall be moderated to ensure that the final bound rate of the processed product equates to, but does not reduce below, the final bound rate for the primary product.

89. Tariff escalation treatment shall not apply to any product that is declared as Sensitive. Where the reduction for a tropical product would result in a reduction that is greater than the reduction under the tariff escalation formula, the tropical product reduction shall apply.

90. This modality shall be applied by developed country Members and developing country Members declaring themselves to be in a position to do so.

¹⁶ It is understood that conformity with the provisions of the modalities on this matter is without prejudice to whether or not tariff escalation, as a factual matter, does or does not continue to exist.

Commodities

91. In the event that adverse effects of tariff escalation for commodities were not to be eliminated via the tiered formula for reductions in bound duties and such specific measures on tariff escalation as are provided for, Members shall engage with commodity-dependent producing country Members to ensure satisfactory solutions.

92. Consistent with this, the following approach shall be applicable:

- (a) commodity-dependent developing country Members, individually or as a group, shall identify and present products of interest to them for purposes of addressing tariff escalation to be adopted as part of the modalities. In doing so, they will indicate the match of products on which tariff escalation should be addressed;
- (b) developed countries and those developing country Members declaring themselves to be in a position to do so shall undertake tariff escalation reductions in the identified products;
- (c) at the end of the implementation period, the difference between the identified primary and processed products shall not exceed an agreed defined percentage spread in the event that the combined effect of reductions through the tiered formula, through liberalisation of tropical and diversification products and through the tariff escalation is not deemed to have been sufficient.

93. Provision shall be made also for suitable procedures for negotiations on the elimination of non-tariff measures affecting trade in commodities.

94. This work shall continue through the post-modality phase to be concluded no later than the scheduling phase. The Secretariat will provide technical assistance in support of the commodity-dependent developing country Members throughout this period.

95. Provision shall be made to ensure the possibility that Members may take joint action through adoption of suitable measures, including through adoption of intergovernmental commodity agreements, for stabilization of prices for exports of agricultural commodities at levels that are stable, equitable and remunerative. The provisions of Article XXXVIII in the chapter on Trade and Development of GATT 1994, Part IV which *inter alia* stipulates that the WTO Members could take "joint action" through "international arrangements" for ensuring "stable equitable and remunerative prices" for exports of primary agricultural commodities should be reviewed, clarified and improved so that, taken together with the role of Article XX (h) referred to in paragraph 100 below, an understanding will be reflected in the Agreement on Agriculture that the term "arrangements" covers both commodity agreements of which all interested producing and consuming countries are parties; and agreements of which only commodity-dependent producing countries are parties.

96. Action for negotiations and adoption of intergovernmental commodity agreements in pursuance of the provisions of the paragraph above may be taken either jointly by producing and consuming countries or by commodity-dependent producing countries only.

97. Such intergovernmental commodity agreements may be negotiated and adopted by the countries themselves, or adopted after negotiations undertaken under the auspices of the WTO, UNCTAD or international commodity organizations.

98. Intergovernmental commodity agreements may be negotiated and adopted on an international or regional basis.

99. Such agreements may provide for participation of association of producers.

100. The general exceptions provisions of Article XX (h) of GATT 1994 shall also apply to intergovernmental commodity agreements of which only producing countries of the concerned commodities are Members.

101. Technical assistance shall be provided for, *inter alia*, the improvement of world markets for commodities and adoption and implementation of intergovernmental commodity agreements.

102. Financial resources required by the international trade and other organizations for providing technical assistance in accordance with the provisions of paragraphs 100 and 101 above shall be monitored through the mechanism established in WTO for administering Aid for Trade.

Tariff simplification

103. No tariff shall be bound in a form more complex than the current binding. All simplified bound tariffs shall not amount to any increase over the original more complex tariff.

104.

Either:

All bound tariffs on products in a Member's Schedule shall be expressed as simple *ad valorem* tariffs using the methodology set out in Annex A to TN/AG/W/3 of 12 July 2006.

Or:

No less than 90 percent of bound tariffs on products in a developed country Member's Schedule shall be expressed as simple *ad valorem* tariffs using the methodology set out in Annex A to TN/AG/W/3 of 12 July 2006.¹⁷ As regards, the residual unconverted tariff lines, each Member shall, by the end of the implementation period, have undertaken a review of the situation so that a decision can be taken no later than one year after the end of the implementation period on how to thereafter achieve 100% *ad valorem* coverage.

105. The above commitments shall be applied subject to the terms and conditions of the methodology set out in Annex N.

106. In any case, the most highly complex forms of bound tariffs, such as those resulting from complex composition matrices, shall be converted to *ad valorem* or specific tariffs. The method for converting these into specific or *ad valorem* tariffs shall be the methodology to calculate *ad valorem* equivalents as set out in Annex A to TN/AG/W/3 of 12 July 2006.

107. Developing country Members making such conversions shall have an additional two years to achieve this outcome, if applicable. For developing country Members that face challenges in converting non-*ad valorem* tariffs into *ad valorem* tariffs, efforts will be made to address such challenges, including through technical assistance. Least-developed country Members shall not be required to effect any such changes.

108. The simplified tariffs shall be specified in Members' Draft Schedules. In all cases of proposed simplification, Members shall supply supporting data that demonstrates that the proposed

¹⁷ In the case of the European Communities, however, this figure shall be 85% and, within the residual 15 percent that is not converted, up to but no more than 5% may be retained as compound or mixed tariffs.

simplified bound tariff is representative of, and does not amount to any increase over, the original more complex tariff and that the proposed simplification is in conformity with the agreed methodology. All Members shall be given sufficient time for evaluation of the proposed changes and all Members undertaking such a simplification shall respond constructively to queries made regarding those proposed conversions. Upon request, the WTO Secretariat shall provide advice on technical matters and shall give particular technical assistance to developing country Members.

Tariff quotas

(a) Bound in-quota tariffs¹⁸

109. For developed country Members, all in-quota tariffs shall be reduced either by 50 per cent or to a threshold of 10 per cent, whichever results in the lower tariff. The reductions shall be implemented on the same time-frame as for the expansion of tariff quotas. The maximum in-quota tariff on the first day of implementation shall be 17.5 per cent. Where the in-quota tariff rate is already bound at or below 5% per cent *ad valorem* it shall be reduced to zero at the end of the first year of the implementation period.¹⁹

110. Where, in its current Schedule, a Member has a tariff quota which includes a tariff line or tariff lines each of which has bound in-quota tariff(s) equal to or higher than the bound out-of-quota tariff(s), effectively making the tariff quota non-operational, the Member concerned may eliminate the tariff quota. In such a case, the Member concerned shall compensate for the elimination of these quotas by reducing the threshold referred to in the previous paragraph by two percentage points for all operational quotas.

111. Developing country Members' in-quota tariffs shall be reduced by 15 per cent. SVEs' in-quota tariffs shall be reduced by 7.5 per cent²⁰. However, there shall be no equivalent to the developed country Member requirement to reduce to a threshold if lower; nor to the requirement to reduce rates at or below 5 per cent *ad valorem* to zero. The reductions shall be implemented on the same time-frame as for the expansion of tariff quotas. Where the tariff lines in a tariff quota are declared to be Special Products with zero cut, there shall be no requirement to reduce the in-quota tariff.

112. Where a small, vulnerable economy has a tariff quota, all the tariff lines of which are declared Special Products, it shall not be required to reduce the in-quota tariffs.

113. The relevant reduction by RAMs shall be further reduced to one third of the percentage cut required for developing country Members. In-quota tariffs at or under 15 per cent need not be reduced. Saudi Arabia, the Former Yugoslav Republic of Macedonia, Viet Nam, Tonga and Ukraine, as very recently-acceded Members and small low-income RAMs with economies in transition²¹ need not make any reductions.

114. All in-quota tariffs shall be bound in *ad valorem* form. For expanded Sensitive tariff quotas a single rate of duty, equal to the lowest current bound in-quota tariff applicable to the tariff lines

¹⁸ Reductions in in-quota tariffs shall not count for the purposes of calculating the average cuts.

¹⁹ Switzerland shall be allowed not to reduce to zero the in-quota tariff for 2 tariff lines of wine in bottles, and not to reduce to 10 per cent the in-quota tariffs for two tariff lines of bread cereals. This shall apply to bound in-quota tariffs only. Switzerland shall compensate with new market access opportunities equivalent to 1 per cent of domestic consumption.

²⁰ Venezuela may also apply this provision.

²¹ This is applicable to Albania, Armenia, Georgia, Kyrgyz Republic, Moldova and Mongolia

covered by a single quota, shall be the starting point for reductions for all tariff lines covered by the expanded tariff quota..

(b) Tariff quota administration

115. Tariff quota administration of scheduled tariff quotas shall be deemed to be an instance of "import licensing" within the meaning of the Uruguay Round Agreement on Import Licensing Procedures and, accordingly, that Agreement shall apply in full, subject to the Agreement on Agriculture and to the following more specific and additional obligations.

116. As regards the matters referred to in paragraph 4(a) of Article 1 of that Agreement, as these agricultural tariff quotas are negotiated and scheduled commitments, publication of the relevant information shall be effected no later than 90 days prior to the opening date of the tariff quota concerned. Where applications are involved, this shall also be the minimum advance date for the opening of applications.

117. As regards paragraph 6 of Article 1 of that Agreement, applicants for scheduled tariff quotas shall apply to one administrative body only.

118. As regards the matters referred to in paragraph 5(f) of Article 3 of that Agreement, the period for processing applications shall be, unqualifiedly, no longer than 30 days for "as and when received" cases and no longer than 60 days for "simultaneous" consideration cases. The issuance of licences shall, therefore, take place no later than the effective opening date of the tariff quota concerned, except where, for the latter category, there has been an extension for applications allowed for under Article 1.6 of that Agreement.

119. As regards Article 3.5(i), licences for scheduled tariff quotas shall be issued in economic quantities.

120. Tariff quota "fill rates" shall be notified.

121. In order to ensure that their administrative procedures are consistent with Article 3.2 of that Agreement, "no more administratively burdensome than absolutely necessary to administer the measure", importing Members shall ensure that unfilled tariff quota access is not attributable to administrative procedures that are more constraining than an "absolute necessity" test would demand.

122. Where licences held by private operators exhibit a pattern of being less than fully utilized for reasons other than those that would be expected to be followed by a normal commercial operator in the circumstances, the Member allocating the licences shall give this due weight when examining the reasons for under utilization and considering the allocation of new licences as provided for under Article 3.5 (j).

123. Where it is manifest that a tariff quota is under filled but there would appear to be no reasonable commercial reason for this to be the case, an importing Member shall request those private operators holding unused entitlements whether they would be prepared to make them available to other potential users. Where the tariff quota is held by a private operator in a third country, e.g. as a result of country-specific allocation arrangements, the importing Member shall transmit the request to the holder of the allocation concerned.

124. As regards Article 3.5(a) (ii) of that Agreement, Members shall make available the contact details of those importers holding licences for access to scheduled agricultural tariff quotas, where, subject to the terms of Article 1.11, this is possible and/or with their consent.

125. Members shall provide for an effective re-allocation mechanism in accordance with the procedures outlined in Annex E

Special Agricultural Safeguard (SSG)

126. Developed country Members shall reduce to 1 per cent of scheduled tariff lines the number of lines eligible for the SSG on the first day of implementation, and it shall have been eliminated no later than the end of the seventh year of implementation. At no time during this seven year period may the total duty applicable on a tariff line exceed the pre Doha round tariff binding. If a tariff line included in the 1 per cent SSG entitlement is declared sensitive, the tariff quota expansion applicable to a two-thirds deviation shall apply. In addition, products subject to delayed implementation shall not be subject to other flexibilities reducing quota size other than sub-allocation. The standard implementation period for in-quota rate reductions shall apply to tariff lines included in the 1 per cent SSG entitlements.

127. For developing country Members the SSG coverage shall be reduced to no more than 2.5 per cent of tariff lines on the first day of implementation. For SVEs the SSG coverage shall be reduced to no more than 5 per cent of lines over 12 years. The terms and conditions of the SSG shall remain unchanged from the terms and conditions in the Uruguay Round Agreement on Agriculture except that the tariff rates concerned shall be updated to reflect the outcome of the Doha Round negotiations.

128. Article 5 of the Agreement on Agriculture shall be amended accordingly to reflect these modalities.

D. SPECIAL AND DIFFERENTIAL TREATMENT

Special Products

129. Developing country Members shall be entitled to self-designate Special Products guided by indicators²² based on the criteria of food security, livelihood security and rural development. There shall be 12 per cent of tariff lines available for self-designation as Special Products. Up to 5 per cent of lines may have no cut. The overall average cut shall, in any case, be 11 percent.*

** A number of developing country Members have expressed reservations concerning the numbers specified in this paragraph, noting also that this may be affected by what is decided in other areas of the text.*

130. In the case of small vulnerable economies, including those among them which are ceiling binding and homogenously low binding countries, they may, if they choose to do so, apply the moderated tariff tiered formula for SVEs provided for in paragraph 65 above plus the Special Product entitlement outlined above. Alternatively, they may chose not to apply the tiered formula but simply meet an overall average cut of 24 per cent through having in effect opted to designate as many tariff lines as they choose as Special Products. The tariff lines so chosen need not be subject to any minimum tariff cut and need not be guided by the indicators.

131. In the case of RAMs, the maximum tariff line entitlements to Special Products shall be 13 per cent and the overall average cut to be achieved for the designated tariff lines may be further reduced to 10 per cent.

²² See Annex F.

Special Safeguard Mechanism (SSM)

132. The SSM shall have no *a priori* product limitations as to its availability, i.e. it can be invoked for all tariff lines in principle. A price-based and a volume-based SSM shall be available. In no circumstances may any product be, however, subject to the simultaneous application of price – and volume-based safeguards. Nor shall there be application of either of these measures if an SSG, a measure under GATT Article XIX, or a measure under the Agreement on Safeguards is in place.

133. As regards the volume-based SSM, it shall be applied on the basis of a rolling average of imports in the preceding three-year period (hereafter "base imports"). On this basis, the applicable triggers and remedies shall be set as follows:

- (a) where the volume of imports during any year exceeds 110 per cent but does not exceed 115 per cent of base imports, the maximum additional duty that may be imposed on applied tariffs shall not exceed 25 per cent of the current bound tariff or 25 percentage points, whichever is higher;
- (b) where the volume of imports during any year exceeds 115 per cent but does not exceed 135 per cent of base imports, the maximum additional duty that may be imposed on applied tariffs shall not exceed 40 per cent of the current bound tariff or 40 percentage points, whichever is higher;
- (c) where the volume of imports during any year exceeds 135 per cent of base imports, the maximum additional duty that may be imposed on applied tariffs shall not exceed 50 per cent of the current bound tariff or 50 percentage points, whichever is higher;
- (d) where, formally, these triggers could be met, but the absolute level of imports is manifestly negligible in relation to domestic production and consumption, remedies would not be applied.

134. Imports under any scheduled tariff rate quota commitment may be counted for the purpose of determining the volume of imports required for invoking the volume-based SSM (except where a volume increase is entirely attributable to a scheduled tariff rate quota increase under Doha implementation phasing), but no additional duty shall be imposed on imports within such tariff rate quota commitments.

135. As regards the price-based SSM, it shall be applicable where the c.i.f. import price²³ of the shipment²⁴ entering the customs territory of the developing country Member, expressed in terms of its domestic currency falls below a trigger price²⁵ equal to 85 per cent of the average monthly MFN-sourced price²⁶ for that product for the most recent three-year period preceding the year of importation for which data are available, provided that, where the developing country Member's domestic currency has at the time of importation depreciated by at least 10 per cent over the preceding 12 months against the international currency or currencies against which it is normally valued, the

²³ Hereafter the "import price".

²⁴ A shipment shall not be considered for purposes of paragraphs 135 and 146 unless the volume of the product included in that shipment is within the range of normal commercial shipments of that product entering into the customs territory of the importing developing country Member.

²⁵ The trigger price shall be publicly disclosed and available to the extent necessary to allow other Members to assess the additional duty that may be levied.

²⁶ Hereafter the "reference price". The reference price used to invoke the provisions of this paragraph shall be the average monthly c.i.f. unit value of the product concerned.

import price shall be computed using the average exchange rate of the domestic currency against such international currency or currencies for the three-year period referred to above.

136. The price-based SSM remedy shall apply on a shipment-by-shipment basis. The additional duty shall not exceed 85 per cent of the difference between the import price of the shipment concerned and the trigger price.

137. Developing country Members shall not normally take recourse to the price-based SSM where the volume of imports of the products concerned in the current year is manifestly declining, or is at a manifestly negligible level incapable of undermining the domestic price level.

138. The calculation of volume or price triggers, and the application of measures in accordance with the relevant provisions of this section, shall be on the basis of MFN trade only.

139. Any shipments of the product in question which, before the imposition of the additional duty, have been contracted for and were en route after completion of custom clearance procedures in the exporting country, either under the price- or volume-based SSM, shall be exempted from any such additional duty, provided that where a volume-based SSM may be applicable in the next twelve-month period, the shipment of the product in question may be so counted in that period for the purposes of triggering the SSM.

140. The volume-based SSM may be maintained for a maximum period of 12 months from the initial invocation of the measure, unless a seasonal product is involved, in which case the SSM shall apply for a maximum of six months or to cover the period of actual seasonality, whichever is the longer. For the next immediate (consecutive) period, the three year rolling average shall be inclusive of that immediately preceding period of imports when the SSM was in place. However, where this would have the effect of lowering the three year rolling average below the level which triggered the SSM in the initial period, the trigger level for the initial period shall apply. No product shall be subject to the volume-based SSM consecutively for more than two periods and where such consecutive application has occurred this may not be resorted to again before the elapse of a further two consecutive periods.

141. The operation of the SSM shall be carried out in a transparent manner and the basis upon which ongoing calculations of rolling averages of import volumes and prices shall be accessible to all Members so that they can be fully informed of the basis upon which any potential actions may be taken. Any developing country Member taking action shall give notice in writing, indicating the tariff lines affected by the additional SSM duty and including relevant data, to the Committee on Agriculture as far in advance as may be practicable or, where this is not possible, no later than 15 days after the implementation of such action. The Member taking action shall afford any interested Members the opportunity to consult with it in respect of the conditions of application of such action.

142. The above provisions on triggers and remedies apply subject to the limitation that the pre-Doha bound tariff is respected as the upper limit and shall prevail as such.

143. For least-developed country Members they may, nevertheless, apply the maximum remedy provided for above even if this would otherwise entail breach of a pre-Doha bound tariff, provided that the maximum increase over a pre-Doha bound tariff does not exceed 40 *ad valorem* percentage points or 40 per cent of the current bound tariff, whichever is higher. This would be provided that all other relevant conditions for application of the measure have been met.

144. [In the case of SVE's referred to in footnote 11 to these modalities, they may apply the maximum remedy provided for above even if this would otherwise entail breach of a pre-Doha bound tariff, provided that the maximum increase over a pre-Doha bound tariff does not exceed 20 *ad*

valorem percentage points or 20 per cent of the current bound tariff, whichever is higher, for up to a maximum of (10-15) per cent of tariff lines in any given period. This would be provided that all other relevant conditions for application of the measure have been met.

145. For developing country Members other than those referred to in the preceding paragraph, they may apply the maximum remedy provided for above even if this would otherwise entail breach of a pre-Doha bound tariff provided that (a) the maximum increase over the pre-Doha bound tariffs would be no more than 15 *ad valorem* percentage points or 15 per cent of the current bound tariff, whichever is the higher; (b) the maximum number of products for which this provision would be invoked would be no more than 2-6²⁷ in any given period; and (c) this would not be permissible for two consecutive periods. All other provisions would be applicable.]

146. The relevant Articles of the Agreement on Agriculture shall be amended to reflect the above modalities.

Fulllest liberalization of trade in tropical and diversification products

147. For those tropical and diversification products attached in Annex G, the following modality shall be applied over and above that which would otherwise result from application of the tiered formula.

148.

Either:

Where the scheduled tariff is less than or equal to 25 per cent *ad valorem*, it shall be reduced to zero. Where it is greater than 25 per cent *ad valorem* the applicable tariff cut shall be 85 per cent. There shall be no sensitive product treatment for any of the products appearing on the annexed list. The implementation of the cuts concerned shall be in four equal annual steps for all developed country Members.

Or:

Where the tariff is greater than or equal to 10 per cent, it shall be reduced by the percentage cut specified in paragraph 61 (d) above, except for tariffs in the top band which shall be reduced by the tariff escalation tariff cut for that band increased by 2 *ad valorem* points. Where the tariff is less than 10 per cent, it shall be reduced to zero. The reductions concerned shall be implemented by developed country Members in accordance with the general tariff reduction implementation period. Developing country Members declaring themselves in a position to do so are encouraged to make additional efforts on tropical products beyond what would be required under the tiered formula

Long-standing preferences and preference erosion

149.

Either:

²⁷ For the purposes of this provision a “product” is identifiable at the 6-digit level of the Harmonized System (HS) nomenclature, but with the understanding that this can entail a maximum of [4 - 8] tariff lines *per product* below that 6-digit level.

For the products listed in Annex H, there shall be no tariff cuts on the items in that list for 10 years. Tariff cuts shall commence only after that point and shall be implemented over five years in equal annual instalments thereafter.

Or:

For those products listed in Annex H, where:

- (a) the pre-Doha MFN bound tariff is greater than 10 per cent ad valorem, and*
- (b) over the most recent three-year period, the total value of trade from long-standing preference receiving country Members is greater than US\$ 50,000 or is 3 per cent of any long-standing preference receiver's total agricultural trade to the market concerned, and*
- (c) there is unconstrained long-standing preference eligibility in the market concerned,*

tariff cuts by long-standing preference granting country Members shall be implemented in equal annual instalments steps over a period that is two years longer than the implementation period for developing country Members for tariff cuts under the tiered formula.

Where, however, there is an overlap between products subject to this provision and those covered by the tariff escalation and/or tropical products provisions, the latter provisions shall prevail, except for the specific list of products identified in Annex X on which tariff reduction commitments shall proceed as is specifically determined in that Annex.

150. Long-standing preference granting Members having undertaken to provide targeted technical assistance, including additional financial and capacity building assistance to help address supply-side constraints and to promote the diversification of existing production in the territories of preference receiving Members, progress shall be reviewed annually.

E. LEAST-DEVELOPED COUNTRIES

151. Least-developed country Members are not required to undertake reductions in bound duties.

152. We reaffirm the need to facilitate LDCs' secure, beneficial and meaningful integration into the multilateral trading system. In this regard, we recall the *Decision on Measures in Favour of Least-Developed Countries* contained in decision 36 of Annex F of the Hong Kong Ministerial Declaration (the "Decision"), and agree that developed Members shall, and developing country Members declaring themselves in a position to do so should²⁸:

- (a) (i) Provide duty-free and quota-free market access on a lasting basis, for all products originating from all LDCs no later than the start of the implementation period in a manner that ensures stability, security and predictability.
- (ii) Members facing difficulties at this time to provide market access as set out above shall provide duty-free and quota-free market access for at least 97 per cent of products originating from LDCs, defined at the tariff line level, no later than the start of the implementation period. In addition, these Members shall take steps to progressively achieve compliance with the obligations set out above, taking into account the impact on

²⁸ Consistent with the text of the "Decision on Measures in Favour of Least-Developed Countries" in Annex F of the Hong Kong Ministerial Declaration (WT/MIN(05)/DEC)

other developing country Members at similar levels of development, and, as appropriate, by incrementally building on the initial list of covered products.

(iii) Developing country Members shall be permitted to phase in their commitments and shall enjoy appropriate flexibility in coverage.

(b) Provide meaningfully enhanced market access for all LDCs.

(c) Ensure that preferential rules of origin applicable to imports from LDCs will be transparent, simple and contribute to facilitating market access in respect of agricultural products. In this connection, we urge Members to use the model provided in document TN/MA/W/74, as appropriate, in the design of the rules of origin for their autonomous preference programmes.

153. Accordingly, developed country Members shall inform WTO Members, by a date to be agreed, of the products that will be covered under the commitment to provide duty-free and quota-free market access for at least 97 per cent of products originating from LDCs defined at the tariff line level. The agreement on the date by which this information shall be provided shall be concluded prior to the date of the Special Session of the Ministerial Conference to be held to take decisions regarding the adoption and implementation of the results of the negotiations in all areas of the DDA (the "Single Undertaking").

154. As part of the review foreseen in the Decision, the Committee on Trade and Development shall monitor progress made in its implementation, including in respect of preferential rules of origin. The details of the monitoring procedure shall be defined and agreed by the Negotiating Group on Market Access by the time of the submission of final schedules. Under the monitoring procedure, Members shall annually notify the Committee on Trade and Development (a) the implementation of duty-free and quota-free programmes, including the steps taken and possible timeframes established to progressively achieve full compliance with the Decision and (b) the corresponding rules of origin. The first notification under this monitoring procedure shall be made by the start of the implementation of the results of the DDA. The Committee on Trade and Development shall review such notifications and shall report annually to the General Council for appropriate action.

COTTON MARKET ACCESS

155. Developed country Members and developing country Members declaring themselves to be in a position to do so shall give duty- and quota-free access for cotton exports from least-developed country Members from the first day of the implementation period.

156. Developing country Members that are not in a position to give duty- and quota-free access for cotton exports from least-developed country Members from the first day of the implementation period shall undertake to look positively at possibilities for increased import opportunities for cotton from least-developed country Members.

G. SMALL, VULNERABLE ECONOMIES

157. For the purposes of these modalities, this term applies to Members with economies that, in the period 1999 to 2004, had an average share of (a) world merchandise trade of no more than 0.16 per cent or less, and (b) world trade in non-agricultural products of no more than 0.1 per cent and (c) world trade in agricultural products of no more than 0.4 per cent.

158. Developed country Members and developing country Members in a position to do so shall provide enhanced improvements in market access for products of export interest to Members with small, vulnerable economies.

159. More specific provisions are to be found in relevant sections of this document.

ANNEX C

Basis for the calculation of tariff quota expansion

1. Where, for any product¹, a Member wishes to designate only a certain number of tariff lines within that product as Sensitive, it is free to do so (provided the total number of tariff lines remains within the defined numerical limit on tariff lines that may be declared Sensitive). In such cases the method set out in Attachment Ai shall apply.²
2. For each product in its entirety as specified in Attachment Ai there shall be a floor minimum access of at least 2 per cent of domestic consumption of that product category.
3. Where there are separate tariff lines for in-quota and out-of-quota trade, they shall be combined and treated as one tariff line under this approach.
4. Where there are separate tariff lines that do not reflect material differences in essential product characteristics (e.g. reflecting superficial differences such as packaging; end use requirements such as distinguishing personal use from other uses; or other administrative distinctions) they shall be combined and treated as one tariff line under this approach.
5. Imports for re-export (including where the obligation to re-export is in a processed form) shall not be counted as "imports" under that tariff line under this approach.
6. Under whichever of these approaches is selected:
 - (a) The resultant calculations shall have been made available to all Members with a sufficient period for them to have reviewed and verified them so that, at the time of the adoption of these Modalities, Members shall be in a position to know precisely what the actual volume of tariff quota expansion shall be at a tariff line level, should a product be subsequently declared as Sensitive. The results of these calculations, as reflected in the templates and attachments, are an integral part of these modalities. As such, only products in respect of which the agreed calculations are annexed shall be eligible for Sensitive Product treatment and, where such a product is in fact selected subsequently as sensitive at the scheduling stage, the results of these calculations shall be, for whatever product is concerned, applicable without variation.
 - (b) Existing scheduled tariff lines shall be the basis for all calculations. There shall be no sub-categorization of tariff lines beyond existing scheduled commitments.
 - (c) The base period shall be the most recent period for which data is available, i.e. 2003-05 unless this would be, for some particular product, a manifestly unrepresentative period due to exceptional circumstances.
7. For any given product category, the provisions of the Attachment on this matter shall apply as regards sub-allocation of tariff quotas.

¹ For the purpose of these modalities, these products are those specified and delimited in Attachment Ai [except that this attachment shall be adjusted further to meet the requirements of Members, particularly developing country Members, which have not yet had sufficient opportunity to have their requirements taken into account in the finalisation of this list, and is without prejudice to the coverage of tropical products which remains to be finalised].

² Domestic consumption data for each product category and all tariff lines within each product category have been provided based on Attachment Ai and can be found on the WTO Members' website. A Member may declare as a Sensitive Product only tariff lines for which domestic consumption data has been provided and posted on the website as of 31 December 2008 and tariff quota expansion for these products shall be based on these data.

8. New tariff quota volumes arising from this negotiation shall be bound in part I-B of Members' Schedules of concessions *erga omnes* on a most favoured nation basis.

ANNEX D

TARIFF ESCALATION LIST

Vegetables

Primary product	Processed product
0702.00 – Tomatoes, fresh or chilled	2002.10 – Tomatoes, whole or in pieces, prepared or preserved otherwise than by vinegar or acetic acid. 2002.90 – Tomatoes, prepared or preserved otherwise than by vinegar or acetic acid. 2009.50 – Tomato juice, unfermented and not containing added sugar or other sweetening matter. 2103.20 - Tomato ketchup and sauce
0707.00 Cucumbers and gherkins, fresh or chilled	0711.40 - Cucumbers and gherkins provisionally preserved 2001.10 - Cucumbers and gherkins prepared or preserved by vinegar or acetic acid
0709.60 - Fruits of the genus Capsicum or genus Pimenta	0904.20 - Fruits of the genus Capsicum or genus Pimenta, dried or ground
0714.10 – Cassava	1108.14 - Cassava starch

Fruits and Nuts

Primary product	Processed product
0801.11 - Coconuts, dessicated 0801.19 - Coconuts, excluding dessicated	1513.11 - Crude coconut oil 1513.19 - Other coconut oil 2306.50 - Oilcake and other solid residues of coconut 2308 - Vegetable materials and vegetable waste [*]
0805.50 – Lemons	2007.91 - Citrus fruit preparations; Jams, fruit jellies, marmalades, fruit or nut puree, and fruit or nut pastes, obtained by cooking, whether or not containing added sugar or other sweetening matter.* 2009.31 - Juice of any other citrus fruit (other than orange or grapefruit); of a Brix value lower or similar to 20).*
0808.20 – Pears and quinces, fresh	2008.40 – Pears, Otherwise prepared or preserved.

Primary product	Processed product
	2009.80 - Juice of any single fruit or vegetable (other than juice of any single citrus fruit, pineapple, tomato, grape, or apple) unfermented and not containing added spirit, whether or not containing added sugar or other sweetening matter*
0809.10 – Apricots, fresh	2008.50 – Apricots, Otherwise prepared or preserved.
0809.20 - Cherries, fresh	0812.10 - Cherries, provisionally preserved. 2008.60 - Cherries, otherwise prepared or preserved.
0809.30 – Peaches, including nectarines, fresh	2008.70 – Peaches including nectarines, otherwise prepared or preserved.
0809.40 - Plums	0813.20 - Prunes, dried

Coffee

Primary product	Processed product
0901.11 - Coffee, not roasted: Not decaffeinated	0901.12 – Coffee, not roasted, decaffeinated 0901.12 – Coffee, not roasted, decaffeinated 0901.21 - Coffee, roasted: Not decaffeinated 0901.22 - Coffee, roasted: Decaffeinated 0901.90 - Other (Coffee husks and skins, coffee substitutes containing coffee) 2101.11 - Extracts, essences and concentrates* 2101.12 - Preparations with a basis of extracts, essences or concentrates or with a basis of coffee

Spices

Primary product	Processed product
0910.10 - Ginger	2006.00 - Other fruits, vegetables and nuts, preserved by sugar 2008.99 - Other fruits and edible parts of the plant, prepared or preserved*

Oilseeds

Primary product	Processed product
12.01 - Soya Beans, whether or not broken	1208.10 - Flours and meals of soya bean 1507.10 - Crude oil, whether or not degummed, of soya bean oil and its fractions, not chemically modified. 1507.90 – Refined oil of soybeans and its fractions, but not chemically modified. 23.04 - Oil cakes of soybeans

Primary product	Processed product
1202.10 - Ground-nuts, in shell, not roasted or otherwise cooked	<p>1202.20 - Ground-nuts, shelled, whether or not broken, not roasted or otherwise cooked</p> <p>1208.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybeans or mustard*</p> <p>1508.10 - Crude Ground-nut oil , not chemically modified</p> <p>1508.90 - Refined Ground-nut oil, not chemically modified</p> <p>2008.11 – Ground nuts, otherwise prepared or preserved, whether or not containing added sugar or other sweetening matter or spirit, not elsewhere specified or included.</p> <p>23.05 - Oilseed cake of ground nuts</p>
1205.10 - Low erucic acid rape or colza seeds, whether or not broken	<p>1208.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybean or mustard*</p> <p>1514.11 - Low erucic acid rape or colza oil, crude, not chemically modified.</p> <p>1514.19 - Low erucic acid rape or colza oil, refined, not chemically modified.</p> <p>2306.41 - Of low erucic acid rape or colza seed</p>
1205.90 - Rape or colza seeds, whether or not broken	<p>1208.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybean or mustard*</p> <p>1514.91 - Crude rape, colza or mustard oil and fractions thereof, not chemically modified.</p> <p>1514.99 - Refined rape, colza or mustard oil and fractions thereof, not chemically modified, Other</p>
12.06 - Sunflower seeds, whether or not broken	<p>1208.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybean or mustard*</p> <p>1512.11 - Crude sunflower-seed or safflower oil and fractions thereof, not chemically modified.</p> <p>1512.19 - Refined sunflower-seed or safflower oil and fractions thereof, not chemically modified.</p> <p>2306.30 - Oilseed cake of sunflower seeds</p>
1207.60 - Safflower seeds	<p>1208.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybeans or mustard*</p> <p>1512.11 - Crude sunflower-seed or safflower oil and fractions thereof, not chemically modified.</p> <p>1512.19 - Refined sunflower-seed or safflower oil and fractions thereof, not chemically modified.</p>
1207.10 – Palm nuts and kernels, whether or not broken	<p>1208.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybean or mustard*</p> <p>1511.10 - Crude palm oil and its refractions, not chemically modified oil</p>

Primary product	Processed product
	<p>1511.90 – Refined palm oil and its refractions, not chemically modified Other</p> <p>2306.60 - Oilseed cake of palm nuts or kernels</p>
1207.20 - Cotton seeds, whether or not broken	<p>1208.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybeans or mustard*</p> <p>1512.21 - Crude cotton-seed oil and its fractions, whether or not gossypol has been removed, not chemically modified</p> <p>1512.29 - Refined cotton-seed oil and its fractions, not chemically modified</p> <p>1521 - Vegetable waxes (of cotton)</p> <p>2306.10 - Oilseed cake of cotton seeds</p>
1207.40 - Sesamum seeds	<p>12.08.90 – Flours and Meals of Oilseeds or oleaginous fruits, other than those of soybeans or mustard*</p> <p>1515.50 - Sesame oil and its fractions</p> <p>2306.90 - Oilseed cake, not otherwise specified*</p>

Cocoa

Primary product	Processed product
1801.00 – Cocoa beans, whole or broken, raw or roasted	<p>1802.00 - Cocoa shells, husks, skins and other cocoa waste</p> <p>1803.10 – Cocoa paste, not defatted</p> <p>1803.20 – Cocoa paste, wholly or partly defatted</p> <p>1804.00 – Cocoa butter, fat and oil</p> <p>1805.00 – Cocoa powder, not containing added sugar or other sweetening matter</p> <p>1806.10 - Cocoa powder, containing added sugar or other sweetening matter</p> <p>1806.20 - Chocolate, containing cocoa, in bloks, slabs or bars >2 kg</p> <p>1806.31 - Chocolate in blocks, slabs or bars, filled</p> <p>1806.32 - Other, in blocks, slabs or bars, not filled</p> <p>1806.90 - Other food preparations containing cocoa</p>

Cereals

Primary product	Processed product
1001.10 – Durum Wheat	11.01 - Wheat or meslin flour* 1103.11 - Groats and meal, of wheat* 1103.20 – Pellets* 1108.11 - Wheat starch 11.09 - Wheat gluten, whether or not dried 1902.11 - Pasta, containing eggs 1902.19 - Other pasta, not stuffed, cooked or otherwise prepared (other than those containing egg) 1902.20 - Stuffed pasta, whether or not cooked or otherwise prepared 1902.30 - Other pasta 1905.20 - Gingerbread 1905.31 - Sweet biscuits 1905.32 - Waffles and wafers
1001.90 – Wheat Other	11.01 – Wheat or meslin flour* 1103.11 – Groats and meal, of wheat* 1103.20 – Pellets* 1103.11 – Wheat starch 11.09 – Wheat gluten, whether or not dried 1905.20 - Gingerbread 1905.31 - Sweet biscuits 1905.32 - Waffles and wafers
10.03 - Barley	1103.19 Groats and meal, of other cereals* 1103.20 Pellets* 1104.19 - Rolled or flaked grains, of other cereals* 1104.29 - Other worked grains, of other cereals* 1107.10 - Malt, not roasted 1107.20 - Malt, roasted 1901.90 - Malt extract and food prep of flour groats, meal or starch, other than for infant preparations, other than for use in mixes and doughs
10.04 - Oats	10.06 - Germ of cereals, whole, rolled, flaked or ground, or otherwise worked, except rice of heading 1103.19 Groats and meal, of other cereals* 1103.20 Pellets* 1104.12 - Rolled or flaked grains: Of oats 1104.22 - Other worked grains: Of oats
1005.90 - Maize (corn), other than seed	1102.20 - Maize (corn) flour 1103.13 - Cereal groats and meal of corn 1108.12 - Corn starch 1515.29 - Other fixed maize oil other than not refined, but not chemically modified 1901.10 - Preparations for infant use, put up for retail sale* 1901.20 - Mixes and doughs for the preparation of bakers' wares of heading 19.05* 1904.10 - Prepared foods obtained from the swelling or roasting of cereals or cereal products* 1905.90 Other* 2005.80 - Sweet corn, prepared or preserved, other than by vinegar or acetic acid, not frozen

Primary product	Processed product
1006.10 - Rice in husk (paddy or rough)	1006.20 Husked (brown) rice 1006.30 Semi-milled or wholly milled rice, whether or not polished or glazed 1006.40 - Broken rice 1102.30 - Rice flour 1103.19 - Groats, meal and pellets, of other cereals* 1904.20 - Prepared foods obtained from the unroasted cereal flakes or from mixtures of unroasted and roasted cereal flakes or swelled cereals* 2302.20 Bran, sharps and other residues of rice
10.07 - Sorghum	1904.10 - Prepared foods obtained by the swelling or roasting of cereals or cereal products* 1904.20 - Prepared foods obtained from the unroasted cereal flakes or from mixtures of unroasted and roasted cereal flakes or swelled cereals*

***In cases where the HS heading can be associated with more than one primary product, the tariff escalation modality would only apply if a Member has scheduled the processed product at the product specific level**

ANNEX E

TARIFF QUOTA UNDERFILL MECHANISM

1. During the first monitoring year, where an importing Member does not notify the fill rate, or where the fill rate is below 65 per cent, a Member may raise a specific concern regarding a tariff quota commitment in the Committee on Agriculture and place this concern on a tracking register maintained by the Secretariat. The importing Member shall discuss the administration of the tariff quota with all interested Members, with the aim of understanding the concerns raised, improving the membership's understanding of the market circumstances¹ and of the manner in which the tariff quota is administered and whether elements of the administration contribute to underfill. This shall take place on the basis of provision of objective and relevant data bearing on the matter, in particular as regards the market circumstances. The interested Members shall fully consider all documentation submitted by the importing Member². The importing Member shall provide to the Committee on Agriculture a summary of any documentation submitted to interested Members. The Members involved shall advise the Committee on Agriculture whether the matter has been resolved. The interested Members shall, if the matter remains unresolved, provide to the Committee on Agriculture, a clear statement of the reasons, based on the discussions and documentation provided, why the matter requires further consideration. Such documentation and information may also be provided and considered in the same manner during the second and third stages of the underfill mechanism, as a means of addressing and resolving Members' concerns.

2. Once the underfill mechanism has been initiated, where the fill rate remains below 65 per cent for two consecutive years, or no notification has been submitted for that period, a Member may request, through the Committee on Agriculture, that the importing Member take specific action(s)³ to modify the administration of the tariff quota concerned. The importing Member shall take either the specific action(s) requested or, drawing on the discussions previously held with the interested Members, such other action(s) which it considers will effectively improve the fill rate of the tariff quota. If the action(s) of the importing Member lead to a fill rate above 65 per cent or interested Members are otherwise satisfied that lesser fill rates are indeed attributable to market circumstances based on the data-based discussions that have taken place, this will be noted and the concern marked "resolved" on the Secretariat's tracking register and will be no longer subject to monitoring (unless at some future point the process is restarted but, if so, it will be a new three year cycle). If the fill rate remains below 65 per cent, a Member may continue to request additional modifications to the administration of the tariff quota.

3. During the third and subsequent monitoring years, where:

- (a) the fill rate has remained below 65 per cent for three consecutive years or no notification has been submitted for that period; and

¹ The market circumstances considered may include, inter alia, elements of prices, production and other factors affecting demand and supply in the domestic and international markets, as well as other relevant factors affecting trade such as the existence of SPS measures taken by an importing Member in accordance with the Agreement on Sanitary and Phytosanitary Measures

² Such documentation may include information on the administration of the tariff quota, as well as data supporting the Member's explanation of the market circumstances of the tariff quota in question and/or of the existence of any SPS measures for the product in question.

³ The actions and remedies taken by the importing Member pursuant to the underfill mechanism shall not modify or impede the rights of a Member holding a country-specific allocation for that tariff quota with respect to their country-specific allocation.

- (b) the fill rate has not increased, for each of the preceding three years, by annual increments of
 - (i) at least 8 percentage points when the fill rate is more than 40 per cent
 - (ii) at least 12 percentage points when the fill rate equals or is less than 40 per cent;⁴ and
- (c) the data-based discussions regarding market circumstances have not led to the conclusion among all interested parties these are in fact the reason for underfill; and
- (d) an interested Member makes a statement in the Committee on Agriculture, that it wishes to initiate the final stage of the underfill mechanism.

4. The importing Member shall then promptly provide unencumbered access via one of the following tariff quota administration methods⁵: a first-come, first-served only basis (at the border); or an automatic, unconditional license on demand system within the tariff quota. In taking a decision on which of these two options to implement, the importing Member will consult with interested exporting Members. The method selected shall be maintained by the importing Member for a minimum of two years, after which time – provided that timely notifications for the two years have been submitted – it will be noted on the Secretariat's tracking register and the concern marked "closed". Developing country Members may choose an alternative tariff quota administration method or maintain the current method in place. This choice of an alternative tariff quota administration method shall be notified to the Committee on Agriculture under the provisions of this mechanism. The method selected shall be maintained by the importing Member for a minimum of two years, after which time, if the fill rate has increased by two-thirds of the annual increments described in paragraph 3(b), it will be noted on the Secretariat's tracking register and the concern marked "closed".

5. The availability of this mechanism and resort to it by any Member is without prejudice to Members' rights and obligations under the covered Agreements in respect of any matter dealt with under the mechanism and, in the event of any conflict, the provisions of the covered agreements shall prevail.

⁴ If the fill rate in any year increases beyond the level specified in 3b ii) the annual increment shall be the one specified in 3b i) in the following year.

⁵ The actions and remedies taken by the importing Member shall not modify or impede the rights of a Member holding a country-specific allocation for that tariff quota with respect to their country-specific allocation.

ANNEX F

ILLUSTRATIVE LIST OF INDICATORS FOR THE DESIGNATION OF SPECIAL PRODUCTS

1. The product is a staple food, or is a part of the basic food basket of the developing country Member through, *inter alia*, laws and regulations, including administrative guidelines or national development plan or policy or historical usage, or the product contributes significantly to the nutritional or caloric intake of the population.
2. A significant proportion of the domestic consumption of the product in its natural, unprocessed or processed form, in a particular region or at a national level, is met through domestic production in the developing country Member concerned.
3. Domestic consumption of the product in the developing country Member is significant in relation to total world exports of that product; or a significant proportion of total world exports of the product are accounted for by the largest exporting country.
4. A significant proportion of the total domestic production of the product in a particular region or at the national level is produced on farms or operational land holdings of up to and including 10 hectares, or is produced on farm or operational land holdings which are of a size equal to or less than the average farm size of the developing country Member concerned, or a significant proportion of the farms or operational land holdings producing the product are up to and including 10 hectares in size or of the average farm size or less of the developing country Member concerned.
5. A significant proportion of the total agricultural population or rural labour force, in a particular region or at the national level, is employed in the production of the product.
6. A significant proportion of the producers of the product, in a particular region or at the national level, are low income, resource poor, or subsistence farmers, including disadvantaged or vulnerable communities and women or a significant proportion of the domestic production of the product is produced in disadvantaged regions and areas including, *inter alia*, drought-prone or hilly or mountainous regions.
7. A significant proportion of the total value of agricultural production or agricultural income of households, in a particular region or at the national level, is derived from the production of the product.
8. A relatively low proportion of the product is processed in the developing country Member as compared to the world average; or the product contributes a relatively high proportion to value addition in the rural areas, in a particular region or at the national level, through its linkages to non-farm rural economic activities, including handicrafts and cottage industries or any other form of rural value addition.
9. A significant proportion of the agricultural customs tariff revenue is derived from the product in a developing country Member.
10. A significant proportion of the total food expenditure, or of the total income, of households in a particular region or at the national level in the developing country Member concerned, is spent on the product.

11. The product in respect of which product specific AMS or blue box support has been notified by any WTO Member and which has been exported by that notifying Member during any year from 1995 to the starting date of the implementation of Doha Round.
12. The productivity per worker or per hectare of the product in the developing country Member, in a particular region or at the national level, is relatively low as compared to the average productivity in the world.

ANNEX G*
LIST OF TROPICAL AND ALTERNATIVE PRODUCTS

HS96	Description
060240	Roses, grafted or not
060290	Live plants, incl. their roots, and mushroom spawn
060310	Cut flowers and flower buds for bouquets, etc., fresh
060390	Cut flowers and flower buds for bouquets, dried, etc.
060491	Foliage, branches, for bouquets, etc. – fresh
060499	Foliage, branches, for bouquets, etc. – except fresh
070190	Potatoes, fresh or chilled except seed
070310	Onions and shallots
070960	Peppers (Capsicum, Pimenta) fresh or chilled
070990	Vegetables, fresh or chilled nes
071190	Other vegetables; mixtures of vegetables
071390	Other dried leguminous vegetables
071410	Manioc (cassava), fresh or dried
071420	Sweet potatoes
071490	Arrowroot, salep, etc. fresh or dried and sago pith
080111	Desiccated coconuts
080119	Other coconuts
080290	Nuts, fresh or dried, whether or not shelled or peeled
080300	Bananas, including plantains, fresh or dried
080420	Figs, fresh or dried
080430	Pineapples, fresh or dried
080440	Avocados, fresh or dried
080450	Guavas, mangoes and mangosteens, fresh or dried
080510	Oranges, fresh or dried
080520	Mandarin, clementine & citrus hybrids, fresh or dried
080530	Lemons and limes, fresh or dried
080590	Other citrus fruit, fresh or dried
080711	Watermelons, fresh
080719	Melons, fresh
080720	Fresh pawpaws "papayas"
081090	Fresh tamarinds, passion fruit, carambola, pitahaya and other edible fruit
081190	Fruits and nuts (uncooked, steamed, boiled) frozen
081290	Fruit and nuts, provisionally preserved
081340	Other fruit
081350	Mixtures of nuts or dried fruits
081400	Peel of citrus fruit or melons
090112	Coffee, not roasted, decaffeinated
090121	Coffee, roasted, not decaffeinated
090122	Coffee, roasted, decaffeinated
090190	Coffee, other roasted
090210	Tea, green (unfermented) in packages < 3 kg
090412	Pepper, crushed or ground
090420	Capsicum or Pimenta, dried, crushed or ground
090700	Cloves (whole fruit, cloves and stems)
091010	Ginger
100610	Rice in the husk (paddy or rough)

HS96	Description
100620	Husked (brown) rice
100630	Semi-milled or wholly milled rice, whether or not polished or glazed
100640	Broken rice
110230	Rice flour
110620	Flour, meal and powder of sago or of roots or tubers of heading 07.14
110630	Flour, meal and powder of the dried leguminous vegetables
110814	Manioc (cassava) starch
120210	Ground-nuts in shell, not roasted or cooked
120220	Ground-nuts, shelled, whether or not broken
120890	Other flours and meals of oil seeds or oleaginous fruits
121190	Plants & parts, pharmacy, perfume, insecticide use nes
121210	Locust beans, locust seeds
121299	Vegetable products nes for human consumption
130219	Vegetable saps and extracts nes
140190	Other vegetable materials
150710	Crude soya-bean oil, and its fractions
150790	Other soya-bean oil, and its fractions
150810	Crude ground nut oil
151110	Palm oil, crude
151190	Palm oil or fractions simply refined
151211	Crude sunflower-seed or safflower oil and fractions thereof
151219	Other sunflower-seed or safflower oil and fractions thereof
151311	Crude coconut (copra) oil and its fractions
151319	Other coconut (copra) oil and its fractions
151321	Crude palm kernel or babassu oil
151329	Palm kernel or babassu oil and fractions thereof, other
151410	Low erucic acid rape or colza oil, crude
151490	Low erucic acid rape or colza oil, other
151530	Castor oil and its fractions
151550	Sesame oil or fractions not chemically modified
151620	Veg fats, oils or fractions hydrogenated, esterified
151710	Margarine, excluding liquid margarine
152190	Beeswax, other insect waxes and spermaceti
170111	Raw sugar, cane
170191	Containing added flavouring or colouring matter
170199	Refined sugar, in solid form, nes, pure sucrose
170310	Cane molasses
180310	Cocoa paste, not defatted
180320	Cocoa paste, wholly or partly defatted
180400	Cocoa butter, fat, oil
180500	Cocoa powder, unsweetened
180610	Cocoa powder, sweetened
180620 ¹	Chocolate and other food preps containing cocoa > 2 kg
180631	Chocolate, cocoa preps, block, slab, bar, filled, > 2kg
180632	Chocolate, cocoa prep, block/slab/bar, not filled, > 2kg
180690 ²	Chocolate/cocoa food preparations

¹ Excluding more disaggregated lines which have a majority of their ingredients which are not tropical or alternative products.

² Excluding more disaggregated lines which have a majority of their ingredients which are not tropical or alternative products.

HS96	Description
200190	Veg, fruit, nuts nes prepared or preserved by vinegar
200410	Potatoes, prepared, frozen
200520	Potatoes, prepared or preserved, not frozen/vinegar
200590	Veg nes, mixes, prepared/preserved, not frozen/vinegar
200600	Fruits, nuts, fruit-peel, etc. preserved by sugar
200710	Homogenized jams, jellies, etc.
200791	Citrus based jams jellies marmalade, etc.
200799	Jams, fruit jellies, purees and pastes, except citrus
200811	Ground-nuts otherwise prepared or preserved
200819	Nuts, seeds & mixes, otherwise prepared or preserved
200820	Pineapples, otherwise prepared or preserved
200830	Citrus fruits, otherwise prepared or preserved
200870	Peaches, otherwise prepared or preserved
200891	Palm hearts, otherwise prepared or preserved
200892	Fruit mixtures, otherwise prepared or preserved
200899	Fruit, edible plants nes otherwise prepared/preserved
200911	Orange juice, frozen, not fermented or spirited
200919	Orange juice, not fermented, spirited, or frozen
200920	Grapefruit juice, not fermented or spirited
200930	Citrus juice nes (one fruit) not fermented or spirited
200940	Pineapple juice, not fermented or spirited
200980	Single fruit, veg juice nes, not fermented or spirited
200990	Mixtures of juices not fermented or spirited
210111	Coffee extracts, essence
210112	Coffee prep. of extracts
210120	Tea and mate extracts, essences and concentrates
210390	Sauces nes, mixed condiments, mixed seasoning
220720	Ethyl alcohol
220840	Rum
230610	Oil-cake and other solid residues, of cotton seeds
230660	Of palm nuts or kernels
240110	Tobacco, not stemmed/stripped
240120	Tobacco, partly or wholly stemmed/stripped
240130	Tobacco refuse
240210	Cigars, cheroots and cigarillos, containing tobacco
240220	Cigarettes containing tobacco
240290	Cigars, cheroots, cigarettes, with tobacco substitutes
240310	Smoking tobacco, whether or not containing tobacco substitutes
240391	"Homogenized" or "reconstituted" tobacco
240399	Other manufactured tobacco
330112	Essential oils of orange
330113	Essential oils of lemon

INDICATIVE LIST OF TROPICAL PRODUCTS USED IN THE URUGUAY ROUND*

	PRODUCT GROUPS AND SUB-GROUPS	4-DIGIT HS HEADINGS
Group I:	Tropical beverages	
(a)	Unprocessed products	0901, 0902, 1801, 1802
(b)	Semi-processed and processed products	1803, 1804, 1805, 2101
Group II:	Spices, flowers and plants, plaiting products, etc.	
(a)	Unprocessed products	0904-0910, 0602, 0603, 1211, 1301, 1401, 1402, 1403, 1404
(b)	Semi-processed and processed products	1302, 1521, 3203, 3301, 4601, 4602, 9601
Group III:	Certain oilseeds, vegetable oils and products thereof	
(a)	Unprocessed products and residues from oil extraction	1202, 1203, 1207, 2305, 2306
(b)	Semi-processed and processed products	1208, 1508, 1511, 1513, 1515, 1516, 1518, 1519, 1520
Group IV:	Tropical roots, rice and tobacco	
(a)	Unprocessed products	0714, 1006, 2401
(b)	Semi-processed and processed products	1106, 1108, 1903, 2402
Group V:	Tropical nuts and fruits	
(a)	Unprocessed products	0801, 0803, 0804, 0807
(b)	Semi-processed and processed products	2006, 2007, 2008
Group VI:	Rubber and tropical wood	
(a)	Raw material	4001, 4403
(b)	Semi-manufactures	4005-4009, 4407-4410, 4412
(c)	Finished products	4011, 4013-4017, 4414, 4418-4421, 9401, 9403
Group VII:	Jute and hard fibres	
(a)	Raw material	5303, 5304, 5305
(b)	Semi-manufactures	5307, 5308, 5310, 5311
(c)	Finished products	5607, 5608, 5609, 5905, 6305

*The resolution of these lists remains under active negotiation at this point.

ANNEX H

INDICATIVE LIST OF PREFERENCE EROSION PRODUCTS*

Tariff Lines at HS 6	Product Description
020130	Fresh or chilled bovine meat, boneless
020230	Frozen, boneless meat of bovine animals
020312	Fresh or chilled hams, shoulders and cuts thereof of swine, with bone in
060310	Fresh cut flowers and flower buds, for bouquets or for ornamental purposes
070200	Tomatoes, fresh or chilled
070810	Fresh or chilled peas "Pisum sativum", shelled or unshelled
070820	Fresh or chilled beans "Vigna spp., Phaseolus spp.", shelled or unshelled
070990	Fresh or chilled vegetables (excl. potatoes, tomatoes, vegetables of the Allium)
071490	Roots and tubers of arrowroot, salep, Jerusalem artichokes and similar roots and tubers with high starch or inulin content, fresh, chilled, frozen or dried, whether or not sliced or in the form of pellets and sago pith (excl. manioc "cassava")
080290	Other nuts, fresh or dried, other
080300	Bananas, incl. plantains, fresh or dried
080430	Fresh or dried pineapples
080440	Avocados
080450	Fresh or dried guavas, mangoes and mangosteens
080610	Fresh grapes
080719	Fresh melons (excl. watermelons)
080720	Fresh pawpaws "papayas"
081090	Fresh tamarinds, cashew apples, jackfruit, lychees, sapodillo plums, passion fruit, carambola, pitahaya and other edible fruit (excl. nuts, bananas, dates, figs, pineapples, avocados, guavas, mangoes, mangosteens, papaws "papayas", citrus fruit, grapes,
081340	Dried peaches, pears, papaws "papayas", tamarinds and other edible fruits (excl. nuts, bananas, dates, figs, pineapples, avocados, guavas, mangoes, mangosteens, citrus fruit, grapes apricots, prunes and apples, unmixed)
090121	Roasted coffee (excl. decaffeinated)
090500	Vanilla
090700	Cloves, whole fruit, cloves and stems
100620	Husked or brown rice
110313	Cereal groats meal and pellets; of maize
121210	Locust beans, incl. locust bean seed, fresh, chilled, frozen or dried, whether or not ground
150810	Crude ground-nut oil
151190	Palm oil and its fractions, whether or not refined (excl. chemically modified and crude)
151311	Crude coconut oil
151321	Crude palm kernel and babassu oil
151590	Fixed vegetable fats and oils and their fractions, whether or not refined, but not chemically modified (excl. soya-bean, ground-nut, olive, palm, sunflower-seed, safflower, cotton-seed, coconut, palm kernel, babassu, rape, colza and mustard, linseed, maize
170111	Raw cane sugar (excl. added flavouring or colouring)
170199	Cane or beet sugar and chemically pure sucrose, in solid form; other
180310	Cocoa paste (excl. defatted)
180400	Cocoa butter, fat and oil
190590	Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products (excl. crispbread, gingerbread and the like
200590	Preparation of vegetables, mixtures

Tariff Lines at HS 6	Product Description
200820	Pineapples, prepared or preserved, whether or not containing added sugar or other sweetening matter or spirit, n.e.s.
200830	Citrus fruit, prepared or preserved, whether or not containing added sugar or other sweetening matter or spirit, n.e.s.
200860	Cherries, prepared or preserved, whether or not containing added sugar or other sweetening matter or spirit (excl. preserved with sugar but not laid in syrup, jams, fruit jellies, marmalades, fruit purée and pastes, obtained by cooking)
200899	Fruits and nuts, other
200911	Frozen orange juice, unfermented, whether or not containing added sugar or other sweetening matter or spirit, n.e.s.
200939	Single citrus fruit juice, unfermented, Brix value > 20 at 20°C, whether or not containing added sugar or other sweetening matter
200979	Apple juice, unfermented, Brix value > 20 at 20°C, whether or not containing added sugar or other sweetening matter (excl. containing spirit)
200980	Juice of fruit or vegetables, unfermented, whether or not containing added sugar
210320	Tomato ketchup
210390	Sauces, other
220710	Beverages, spirits and vinegar; Undenatures ethyl alcohol
220840	Rum and tafia
220890	Ethyl alcohol of an alcoholic strength of < 80% vol, not denatured; spirits and other spirituous beverages (excl. compound alcoholic preparations of a kind used for the manufacture of beverages, spirits obtained by distilling grape wine or grape marc)
230990	Preparations of a kind used in animal feeding (excl. dog or cat food put up for retail sale)
240110	Tobacco, unstemmed/unstripped
240120	Tobacco, partly or wholly stemmed/stripped, otherwise unmanufactured
240130	Tobacco refuse
240210	Cigars, cheroots and cigarillos containing tobacco

*The resolution of this list remains under active negotiation at this point.

ANNEX I

SMALL, VULNERABLE ECONOMIES

1. The data are based on the methodology that was used to prepare a previous Secretariat paper on shares of WTO Members in world non-agricultural trade, 1999-2004 (TN/MA/S/18). Individual Members' data were extracted from the United Nations Comtrade database on 6 June 2007. World export and import totals, excluding significant re-exports were taken from the Secretariat's International Trade Statistics Report 2006. This time period has been updated to 2000-2005 and a c.i.f.-f.o.b. adjustment has been applied to world exports by commodity group to derive respective world imports, but this does not change the overall results.¹ The country averages are calculated on the basis of the years for which data are available.
2. A small, vulnerable economy is defined as one whose average share for the period 1999-2004 (a) of world merchandise trade does not exceed 0.16 per cent and (b) of world NAMA trade does not exceed 0.10 per cent and (c) of world agricultural trade does not exceed 0.40 per cent.
3. The attached table does not include those Members that are defined as least-developed countries by the United Nations Economic and Social Council and those Members for which no data are available.

¹ C.i.f.-f.o.b. factors were estimated based on the ratio of imports to exports for a matched group of reporters in UN Comtrade. World imports by commodity group were derived by applying these c.i.f.-f.o.b. factors to the WTO's world exports by commodity group and aligning the resulting figures to the WTO's world total imports. Intra-trade of the 25 EC member States was then subtracted from the totals.

<i>WTO Member</i>	Share of total merchandise trade (%)			Share of world agriculture (AOA) trade (%)			Share of non-agriculture (NAMA) trade (%)		
	<i>Total (exports + imports)</i>	<i>Exports</i>	<i>Imports</i>	<i>Total (exports + imports)</i>	<i>Exports</i>	<i>Imports</i>	<i>Total (exports + imports)</i>	<i>Exports</i>	<i>Imports</i>

^a Excludes intra-EC trade (25 member States) and significant re-exports.

Source: All data are from the United Nations Comtrade database except for world totals, which are WTO estimates.

ANNEX N

TARIFF SIMPLIFICATION METHODOLOGY

1. The following methodology shall apply in respect of tariff simplification:

At the beginning of the implementation period:

2. The most highly complex forms of bound tariffs, such as complex matrix tariffs shall be converted into simple ad valorem tariffs.
3. Non-ad valorem bound tariffs where the AVE from the Agreed Methodology using the 99-01 base is comparable¹² to the current AVE calculated using the average unit import value for the Member concerned in the year preceding the first year of implementation shall be converted to simple ad valorem tariffs and bound in the Member's Schedule.

Following the implementation period:

4. Non-ad valorem bound tariffs where the AVE from the Agreed Methodology using the 99-01 base is comparable¹³ to the current AVE calculated using the average unit import value for the Member concerned in the last year of the implementation period shall be converted to simple ad valorem tariffs and bound in the Member's Schedule.

Three years after the end of the implementation period:

5. For non-ad valorem bound tariffs where the AVE from the Agreed Methodology is comparable¹⁴ to the current AVE calculated using the average unit import value for the Member concerned in the second year after the implementation period shall be converted to simple ad valorem tariffs and bound in the Member's Schedule.
6. If after the conclusion of the three stages outlined above non-ad valorem tariffs remain unconverted, these tariffs shall remain bound in their non-ad valorem form in the Member's Schedule.

¹² The term “comparable” here shall be deemed to exist only where it can be demonstrated that the effective final tariff cut resultant from calculating the AVE on the basis of the average unit import value in the year preceding the first year of implementation would be no more than 4.9 percent ad valorem percentage points less (i.e. higher) than the effective tariff cut would have been if based on the 99-01 base period.

¹³ The term “comparable” here shall be deemed to exist only where it can be demonstrated that the effective final tariff cut resultant from calculating the AVE on the basis of the average unit import value in the last year of the implementation period would be no more than 4.9 percent ad valorem percentage points less (i.e. higher) than the effective tariff cut would have been if based on the 99-01 base period.

¹⁴ The term “comparable” here shall be deemed to exist only where it can be demonstrated that the effective final tariff cut resultant from calculating the AVE on the basis of the average unit import value in the second year after the end of the implementation period would be no more than 4.9 percent ad valorem percentage points less (i.e. higher) than the effective tariff cut would have been if based on the 99-01 base period.

Attachment A

Notes for Attachment A: Product Categories

The percentages indicated in the Common Consumption Allocation column shall be used for the allocation of consumption among the HS-6 lines for each product in the two-step calculation undertaken in attachment D.

(1)	(2)	(3)	(4)	(5)	(6)	(7)
Sector	Category	HS6	Description	Core Product (See Notes)		Common Consumption Allocation Share
Animal Products, NESOI	Deer Velvet	050790	Tortoise-shell, whalebone & whalebone hair, horns, antlers, hooves, nails, ...	Core	1	100.0%

Notes:

Core Product:

- 1: Core -- i.e., raw or basic traded good
- 2: NonCore -- i.e., processed products with a lower level of value-added to which some consumption will be allocated
- 0: NonCore -- i.e., highly processed products (Ch. 18-23) and any other lines to which no consumption will be allocated

¹ -- Members opting for the treatment provided for in paragraph C iii can use the following percentage for common consumption allocation. Corn: 1005.10: 0.0%, 1005.90: 90.0%, lines 1102.20 through 1104.23: 3.3% each. Rice: 1006.10: 5.8%, 1006.20: 8.5%, 1006.30: 65.9%, 1006.40: 9.8%, lines 1102.30 through 2206.00: 0.5263% each.

² -- For members that do not have tariff lines disaggregated beyond the HS 7 digit level, a separate balance sheet shall be created for 210690. No changes shall be made to the headline domestic consumption numbers in other product categories as a result.

3 Alternative Approach for Fruit and Vegetables and Eggs

In cases where Members are not able to produce data for separate product categories as outlined in Attachment A for fruit and vegetables and eggs, Members can use an alternative approach of combining the fresh, frozen, dried, and prepared/preserved product categories for a given fruit or vegetable (e.g. apples) and eggs in shell and processed eggs into one alternative product category. Domestic consumption for the alternative product category shall be calculated using the balance sheet approach for the alternative product category. Under this alternative approach, the alternative product category shall be subject to the provisions outlined in section C. Core and non-core tariff lines and domestic consumption allocations for the alternative product categories are defined in the appendix to Attachment A

Attachment Ai: Partial Designation Modalities for Sensitive Products

A) Product Categories:

The purpose of the product category list is to establish a common basis on which a member would undertake a partial designation calculation, in the event tariff lines in a product category might be declared Sensitive. The list is comprehensive for the purposes of transparency required in paragraph 8a of Annex C.

The approaches in this attachment are provided without prejudice to the outcome of negotiations on issues such as tropical products, preference erosion and other elements of the market access negotiations.

1) Product Category Tariff Line Coverage: For the purpose of these modalities, the scope of Sensitive Products are those specified and delimited in terms of each product's 6-digit tariff line coverage in Attachment A.

For additional tariff lines added to existing product categories in Attachment A, such lines shall be assigned a coefficient of zero. Any adjustments to domestic consumption due to the addition of new lines would follow the requirements for net trade adjustments outlined in section B.

Any additional tariff lines and product categories to be submitted by other Members would need to be reviewed to ensure consistency with the overall approach.

2) Core and Non-Core Product Tariff Line(s): The core and non-core product tariff lines associated with each product category are specified in Attachment A.

B) Balance Sheet for Domestic Consumption:

The domestic consumption for each product category, except for "other dairy", which is outlined below, shall be calculated using a balance sheet approach based on the tariff line coverage specified for each product category in Attachment A using the template set out in Attachment B. Changes to domestic consumption as specified in Attachment C from the addition or subtraction of tariff lines to a product category shall be made on a net trade basis (imports minus exports).

When Members submit data for the purpose of making adjustments to their national product coverage to adapt it to the product coverage defined in Attachment A, the sum of the net trade adjustments for non-core tariff lines should not result in a reduction of the domestic consumption for the product.

C) Approach for all products, other than dairy and fruits and vegetables¹⁵:

For each product for which a Member chooses to provide data, they shall use the partial designation two step approach, based on the agreed template in Attachment D, to allocate domestic consumption to each 8 digit tariff line.

Within each product category:

- i) All non-core tariff lines in Chapter 18 and higher shall be assigned a 6 digit coefficient of zero for Step 1.

¹⁵ Except as in the alternative approach to fruit and vegetables and egg product categories outlined in footnote 3 of Attachment A.

- ii) A minimum of 90% of the domestic consumption shall be allocated to the core product tariff lines. The remaining domestic consumption shall be allocated in accordance with Attachment A.
- iii) When more than 90% of domestic consumption is allocated to the core tariff lines of a product category as a result of provision i) above and when non-core tariff lines are selected sensitive, a maximum of 90% of domestic consumption shall be allocated to the core tariff lines and 10% shall be allocated equally to non-core tariff lines.

D) Approach for dairy products:

For dairy products, domestic consumption shall be calculated using the balance sheet for domestic consumption data for the following individual products (as listed in Attachment A):

- Fluid Milk
- Butter
- Skim Milk Powder
- Whole milk powder
- Cheese
- Condensed/Evaporated milk
- Yogurt
- Ice Cream
- Casein and Caseinates
- Powdered Whey
- Powdered Buttermilk

Methodology to calculate domestic consumption of other dairy tariff lines:

For the remaining dairy tariff lines, domestic consumption shall be calculated using a residual methodology and an import cross-check. The common HS 6 digit coefficients used to allocate domestic consumption to each HS 6 digit tariff line are as outlined in Attachment F.

Residual Approach

Each Member shall convert their total dairy consumption to a milk solids basis and subtract the domestic consumption for each of the dairy products listed above converted to a milk solids basis using common agreed coefficients as outlined in Attachment E. The residual amount of dairy consumption shall be allocated to each of the bound tariff lines covered by the HS 6 categories listed in the “other dairy” product category in Attachments F using the Step1 and 2 allocation template.

Volume Import Cross-Check

For tariff lines that Members declare as Sensitive Products, the import volume shall be compared to the allocated consumption calculated using the residual methodology. Import volumes shall be converted to a milk solids basis using national coefficients in order to make this comparison. In cases where the import volume is greater than the allocated consumption using the residual methodology, the basis for calculating tariff quota expansion shall be the volume of imports for that tariff line.

Floor-Application

The sum of the tariff quota expansion for all of the sensitive tariff lines (the greater of the residual methodology or volume import cross-check) must be greater than the agreed floor (based on the dairy residual domestic consumption); otherwise the agreed floor applies.

E) Approach for Fruits and Vegetables¹⁶

For Fruit and Vegetables, Members wanting to designate a product as sensitive shall do so on the basis of the product categories outlined in Attachment A.

Members designating Sensitive Products in the fresh product category relating to the product consumed as fresh shall also provide for transparency reasons the balance sheet relating to the total domestic consumption of the whole product in fresh equivalent.

If a Member decides to designate Sensitive Products only in the product category of "fresh", the TQ expansion resulting from the application of the partial designation methodology or the agreed floor of that product category shall at least be equal to 1.5% of the total domestic consumption in fresh equivalent for that product.

F) Minimum Tariff Quota Expansion :

Members shall have the option, for at most two product categories with five or more core tariff lines at the HS6 level, to provide a tariff quota expansion that is equal to the larger of the tariff quota expansion resulting from the application of the partial designation methodology or 1 per cent of domestic consumption of that product category.

For one of those two product categories only, if the average annual volume of commercial exports of the product category not benefiting from export subsidies in the 2003-2005 base period represents at least 15 times the volume of imports of the same product category, Members shall have the option to provide a tariff quota expansion that is equal to the larger of the tariff quota expansion resulting from the application of the partial designation methodology using a 1.75 per cent expansion (of the domestic consumption allocated to the Sensitive tariff lines) or 1 per cent of the domestic consumption of that product category.

Product categories subject to the provisions of section F shall not be subject to any sub-allocation.

The product categories subject to the provisions of section F shall be specified in advance of modalities.

G) Scheduling of Tariff Quotas:

Except as specified below, for any given product category, a single tariff quota shall be established.

Sub-Allocation of Tariff Quotas

Any exception to the single tariff quota rule shall be specified in advance of modalities and shall not apply to product categories with less than ten tariff lines at the HS-6 digit level.

¹⁶ Footnote 3 in Attachment A outlines an alternative approach to address situations where Members are not able to produce domestic consumption data for the fruit and vegetable and egg product categories outlined in Attachment A.

Exceptions to the single tariff quota rule shall be limited to a maximum of two tariff quotas for up to three product categories.

Members availing themselves of sub-allocation for a product shall forfeit the right to provisions under section F above for that product category.

The domestic consumption base for each sub-allocated tariff quota shall result from the two step methodology for allocation of domestic consumption outlined in Annex C except:

- When a tariff quota contains one or more non-core tariff lines with a zero coefficient, the non-core domestic consumption (totalling 10% of the product's domestic consumption) shall be allocated equally to all sensitive and non sensitive 6 digit non-core tariff lines.
 - For such a TQ the entire quantity allocated to a non-core 6-digit line shall be included in the TQ if any Member tariff line (e.g. 8 digit) within that 6-digit is declared sensitive.

In no case shall the TQ expansion resulting from sub-allocation be less than the TQ expansion resulting from partial designation without sub-allocation.

As Members that designate Sensitive Products at the 7 digit level have less flexibility under the partial designation approach, any such Members that forfeit their right to use section F for all product categories as well as other options for sub-allocation in section G and meet the following criteria:

- Allocate the entire aggregate domestic consumption for the product category, and
- Provide all necessary data in advance of the adoption of modalities

Shall be permitted for their sub-allocations to schedule up to three tariff quotas for two product categories, provided that at least 60 per cent of the aggregate consumption for the product category is allocated to the tariff quota representing the largest share of world trade during the 2003-2005 base period. The remaining two tariff quotas for the product category shall be allocated 20 per cent each.

And

Shall be permitted to schedule two tariff quotas for one product category provided that at least 70 per cent of the aggregate consumption for the product category is allocated to the tariff quota representing the largest share of world trade during the 2003-2005 base period.

In addition, and subject to the other constraints in this section, where both sub-quotas contain only core lines (excluding other dairy), the domestic consumption base for the sub-allocated tariff quota containing the member tariff line (eg 8 digit) with the highest annual average value of national imports among the sensitive tariff lines in the product category in the 2003-2005 base period shall be the higher of the result of the partial designation methodology to that sub-allocated quota or 55% of the total tariff quota expansion arrived at through the application of the partial designation methodology to the product category. The domestic consumption base for the other sub-quota shall result from the difference between the total domestic consumption base resulting from partial designation of the product category and the above-mentioned sub-quota.

H) Tariff Quota Fill Coefficients:

Tariff quotas must be established and administered on a basis equivalent to the unit of measure on which domestic consumption was calculated and identified in Attachment B (e.g., grain equivalents, carcass weight equivalents, etc) or allocated and identified in Attachment F (milk solids basis).

Coefficients shall be used for the purpose of counting imports under different tariff lines against tariff quota fill where such imports need to be converted into the equivalent unit of measure for the product for which the tariff quota was established.

For “other dairy”, this coefficient shall be the same coefficient that is used for the purpose of allocating domestic consumption for a tariff line.

The coefficients to be used in the administration of the tariff quota shall be provided in advance of modalities and subject to verification, prior to their inclusion in schedules.

General Note for All Templates:

All data provided in all templates shall be for the 2003-2005 base period. Calculations are to be undertaken using the most disaggregated unit of measure possible, e.g., as metric tons, and not rounded to thousand of tons. All templates should be provided in electronic form for appropriate posting by the Secretariat.

Notes for Attachment B: Balance Sheet Template**Balance Sheet:**

The balance sheet template shall be used for any product category from Attachment A (when finalized) that may be declared sensitive and shall include the following columns:

- a) Total production from source cited below.
- b) Total imports as indicated in source cited below.
- c) Imports under programs which allow their entry on condition that they be used in products that shall be exported.
- d) Total supply calculated as indicated or from source cited below.
- e) Total exports as indicated in source cited below.
- f) Change in stocks as indicated in source cited below.
- g) Domestic Consumption (DC) calculated as indicated. The three year average consumption is also calculated here. Net changes to consumption based on differences between the agreed product definitions and national product definitions are separately identified below the three year average. The extent and nature of these differences are indicated in the Product Coverage table below the main chart.
- h) Industrial use is production that is utilized for further processing rather than directly as food or feed.
- i) Feed use is production fed directly to animals. Seed use is production used for planting.
- j) Food use is production consumed directly for human food without further processing.

Product Coverage Chart:

- k) Lists the HS 6 subheadings that are included in the common product category as defined in Attachment A.
- l) Lists the HS 6 subheadings used to determine the country's national total domestic consumption for the product.
- m) Member Action to indicate if net trade adjustments (addition or subtraction of trade volumes) shall be made to nationally published consumption figure in order to match the product category tariff line coverage in Attachment A. Any adjustments shall be outlined in Attachment C.
- n) Indicates the actual amount of net trade change for each such subheading. The data used to calculate this change is taken from Attachment C. All additions and subtractions shall be based on net product trade in the affected subheadings. Net trade shall be calculated as imports minus exports for the respective tariff lines and shall include product content adjustments set out in Attachment C column 6 for imports and column 9 for exports.

Data Sources:

Citations to data sources should be as complete as possible, including links to specific tables, or sufficient information to enable other members to find the specific data being referenced.

Attachment B: Balance Sheet Template¹

Member Product Category 03-05 Domestic Consumption (MT)	Country X Product Y 727,650
---	-----------------------------------

Balance Sheet:

Feed Use	www.data.gov

Notes for Attachment C: Supplementary Data for Balance Sheet

Supplementary Table:

Attachment C must be completed in cases where a net trade adjustment has been made to the nationally published domestic consumption figure (as specified in Attachment B Column m). In cases where no net trade adjustment has been made to the nationally published domestic consumption figure Attachment C is not required.

Column Descriptions:

- (1) All HS-6s in the product category for which a net trade adjustment was made (as outlined in Attachment B, Column m)
- (2) All bound TRQ over-quota and tariff-only lines within an HS-6 for which a net trade adjustment was made.
- (3) All detail import lines (or separately bound in-quota lines) within an HS-6 for which a net trade adjustment was made.
- (4) Bound tariff line description
- (5) Unadjusted national imports (volume) by detail tariff line
- (6) National product import content coefficient by detail tariff line. This coefficient must also be provided in Attachment G, Column 5 Tariff Quota Fill Coefficient.
- (7) National imports (volume) by detail tariff line adjusted for product content.
- (8) National imports (volume) by HS-6s adjusted for product content
- (9) All detail export lines in the product category
- (10) National product export content coefficient by detail export line
- (11) Unadjusted national exports (volume) by detail export line
- (12) National exports (volume) by detail export line adjusted for product content
- (13) National exports (volume) by HS-6s adjusted for product content
- (14) The net trade difference (adjusted HS-6 imports minus adjusted HS-6 exports)

Attachment C: Supplementary Data for Balance Sheet

The following data must be provided for all tariff lines for which a net trade adjustment was made as specified in Attachment B column m

(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)
Avg. 2003-05 Trade Data

											Total Net Trade not in DC		3,083

Notes for Attachment D: Two-step Allocation Template

The Two-Step Allocation Template shall be used for any product category from Attachment A (when finalized) that may be declared sensitive and shall include the following columns:

- (1) All HS-6s in common product category
- (2) All bound TRQ over-quota and tariff-only lines within HS-6
- (3) All detail lines (or separately bound in-quota lines) that contribute to tariff line allocation
- (4) Bound tariff line description
- (5) Indicates a bound tariff rate quota exists for the respective tariff line
- (6) Share of domestic consumption allocated to HS-6 (From Attachment A)
- (7) Domestic consumption quantity allocated to HS-6
- (8) Unadjusted national imports (value) by tariff line
- (9) National product content coefficient by tariff line, which may not exceed 100 percent.
- (10) National imports by tariff line adjusted for product content
- (11) Total adjusted national imports in HS-6
- (12) Share of adjusted national imports for each tariff line within HS-6
- (13) Allocated domestic consumption by tariff line

Attachment D: Two-Step Allocation Template¹

Member Product Category 03-05 Domestic Consumption (MT)	Country X Product Y 727,650

Total					100%	727,650			54,475,670	54,475,670		727,650

¹This template shall be utilized by any Member that may declare any product as Sensitive as provided for in Annex C

Notes for Attachment E: Calculation of Residual Domestic Consumption

The Calculation of Residual Domestic Consumption shall be used for the Other Dairy product category from Attachment A by any Member that may declare any tariff lines in the Other Dairy product category as Sensitive and shall include the following columns:

- (1) Common HS 6 Product Definition
- (2) Common List of Products to be Subtracted from Total Dairy Consumption
- (3) Common Milk Solids Coefficient
- (4) Domestic Consumption on a Product Basis
- (5) Domestic Consumption on a Milk Solids Basis

Other:

Members should provide balance sheet information (Attachment B and C) for any dairy products being subtracted from the total dairy domestic consumption in order to obtain the residual.

Attachment E: Other Dairy Domestic Consumption Residual Calculation Methodology

(1)	(2)	(3)	(4)	(5)
		Common Milk Solids Coefficients	CONSUMPTION	
			MT (Product Consumption)	MT (Milk Solids)
HS6		a	b	= a* b
	Total Dairy Domestic Consumption¹			500,000
040110, 040120	Milk (non-manufacturing)	12.0%	200,000	24,000
040210	SMP	97.0%	20,000	19,400
040221, 040229	WMP	96.0%	10,000	9,600
040291, 040299	Evap/Cond Milk	30.0%	5,000	1,500
040310	Yogurt (incl. frozen)	12.0%	20,000	2,400
0405	Butter	82.0%	100,000	82,000
0406	Cheese	53.4%	150,000	80,100
210500	Ice Cream (incl. low-fat)	21.0%	75,000	15,750
350110, 350190	Casein	92.8%	30,000	27,840
040390	Powdered Buttermilk	92.0%	10,000	9,200
040410	Whey Powder	97.0%	10,000	9,700
	Residual Dairy Domestic Consumption²			218,510

¹Total Dairy Consumption is the total consumption of all dairy products measured in milk solid tonnes and shall be verifiable based on published national data.

²Residual Dairy Consumption is the domestic consumption in milk solid tonnes to be allocated to the other dairy product category.

Notes for Attachment F: Two-step Allocation Template for Other Dairy

The Two-Step Allocation Template shall be used for the Other Dairy product category from Attachment A (when finalized) by any Member that may declare any tariff lines in the Other Dairy product category as sensitive and shall include the following columns:

- (1) All HS-6s in common Other Dairy product category
- (2) All bound TRQ over-quota and tariff-only lines within HS-6
- (3) All detail lines (or separately bound in-quota lines) that contribute to tariff line allocation
- (4) Bound tariff line description
- (5) Indicates a bound tariff rate quota exists for the respective tariff line
- (6) Share of Consumption allocated to HS-6 (From Attachment A)
- (7) Domestic consumption quantity allocated to HS-6
- (8) Unadjusted national imports (value) by tariff line
- (9) National milk solids coefficient by tariff line
- (10) National imports by tariff line adjusted for milk solids content
- (11) Total adjusted national imports in HS-6
- (12) Share of adjusted national imports for each tariff line within HS-6
- (13) Allocated domestic consumption by tariff line
- (14) Unadjusted national imports (volume) by tariff line
- (15) National volume imports by tariff line adjusted for milk solids content
- (16) Greater of (13) allocated domestic consumption by tariff line or (15) national volume imports by tariff line adjusted for milk solids content

Notes for Attachment G: Tariff Quota Fill Coefficient Template

The Tariff Quota Fill Coefficient Template shall be used for any product category from Attachment A (when finalized) that may be declared Sensitive and shall include the following columns:

- (1) All HS-6s in common product category
- (2) All bound TRQ over-quota and tariff-only lines within HS-6
- (3) All detail lines (or separately bound in-quota lines or applied tariff lines).
- (4) Bound tariff line description
- (5) Product import content coefficients used for the purpose of establishing and administering tariff quotas on an equivalent basis to the unit of measure on which domestic consumption was calculated. These coefficients shall be used for the purpose of counting imports under different tariff lines against tariff quota fill where such imports need to be converted to an equivalent unit of measure (eg. carcass weight equivalent, grain equivalent, egg equivalent, etc.).

Attachment G: Tariff Quota Fill Coefficient Template

Technical coefficients are widely used in existing domestic consumption calculations to convert import quantities to a common unit of measure (eg. carcass weight equivalent, grain equivalent, egg equivalent, etc.) and to adjust import quantities to appropriately reflect the content of the product category concerned (eg. the wheat equivalent content of pasta).

All Members are to provide the technical coefficients applied to import quantities (which for those tariff lines included in Attachment C would be the same or aggregated coefficients used in Column 6 of that attachment) and these coefficients shall be used for the purpose of establishing and administering tariff quotas on an equivalent basis to the unit of measure on which domestic consumption was calculated. These coefficients shall be used for the purpose of counting imports under different tariff lines against tariff quota fill where such imports need to be converted to an equivalent unit of measure.

Member Product Category	Country X Product Y
